New Type Buses Introduced

A fleet of 350 radically new Greyhound buses, like the one pictured here, is now being delivered throughout the United States. A large number will be placed on bus schedules operating through the Appomattox Greyhound terminal, August 15th, states Mr. Arthur H. Hill, president of the Atlantic Greyhound Corporation in Charleston, W. Va.

Each coach of the fleet will be air-conditioned, and approximately half of them will be powered by powerful 2-cycle Diesel motors. There are numerous improvements in the coach such as new-type reclining easy chairs, retractable steps for easy boarding. The new buses are built largely of tough aluminum alloy, and cost about \$20,000 each.

FASHION FLASH

WITH the easy innocence of her kind, next year's college girl has stolen still another masculine idea and turned it into a jaunty note to her costume. She wears a baseball cap, identical in cut to those of the big league players. It may be of suede, cloth or of a natural fuzzy felt such as the one featured on the frontispiece of the College Number of Harper's Bazaar for August.

"The watermelon fellow from Yorktown." From time past the New-Englanders and chickens. This is nothing bad. Watermelons are delicious fruit from the vine and the chicken is the real Gosh! bird.

My two and one-half year stay in Yorktown was a source of pleasure and education. Many Revolutionary scenes about the birth of our national freedom. Now I find myself a few days before the 100th anniversary of General Lee's and Grant's Grounds. We who know history are fair-minded know that state's rights are fundamental as constitutional government. No prejudice with me.

Both England and German claim great damage done to other countries by planes with few losses of their own.
